

Our Vision

At Witchampton First School

We are learning to be kind and helpful to each other even though we may believe and enjoy different things.

We are learning to be curious and to know what questions to ask for solving problems and finding things out for ourselves.

We are learning to work together well so that we can all try to be the best we can.

We are learning to care about where we live and the world around us, taking responsibility for looking after it.

We are learning to be proud of our and others' achievements no matter how small they are.
